

Independent & unbiased healthcare coordination
We act as patient's proxy in coordinated healthcare journey

HOW IT WORKS

1 Digitized Medical Records

We collect complete medical history of patients, digitise all the reports, and create a clear health summary ready for any doctor visit or emergency.

Medical history collection

Reports digitised in EMR

Medical summary created

Key vitals recorded

2 Personalised Health Planning

We build a personalised care plan for patients so the screenings, check-ups, and health goals never get missed.

Recommended screenings

Personalised health plan

Emergency care plan

3 Ongoing support

Dedicated Health Assistant coordinates everything from routine visits to specialist connections, so nothing falls through the cracks.

Doctor visit coordination

Tests & screenings

Hospital follow-ups

Specialist referrals

Nutritionist & physio connect

Emergency support

Billing and insurance coordination

4 FastTrack service

Priority coordination at network hospitals. To skip the usual wait and confusion. FastTrack gives priority access so hospital visits are faster, smoother, and stress-free.

Faster appointments

Reduced waiting time

Smoother admission

Easier discharge process

Proxycare

Simple. Organized. Supported.
